Educational trip:

The SWA for the first time organized an educational trip to JNMC, Wardha, an experience beyond the daily hectic schedule of medical school. Students were astonished with the miracles of technology they showed. The team was welcomed and warmly greeted by Dr Sunil Nikose and his team.

The students visited their clinical skills lab and communication skills lab where they had interactive sessions. There were a lot of attractions, The Anatomage, real life mannequins and 3D movies to name a few.

The communication skills session was the fun element. We got the chance to interact amongst our seniors and that really helped us in ice breaking. We also visited e-library there which provided all the latest technology for the students studying there.

Movie Club:

It was the dream of our Hon.Chairman Shri Ranjeet babu Deshmukh to have a movie club in the college campus. The Chill Pill has a tie up with the film federation society of India, which provides us with huge variety of educational, thriller, motivational and dramatic movies from all over the globe. On the 16th of April, Padmavat, one of the most controversial and historic movie was screened. Our enthusiastic students made it a great success.
